### Bank Competition Too Keen To Lend to Farmers, Banker Tells J.T. Shaw in Commons

Sir Fred Williams-Taylor Says Banks Charge More Than Statutory Interest Because Many Operate at a Loss. When Questioned by West Calgary Member

They are Violating the Law queried Mr. Shaw

OTTAWA, April 20.—"The banks are in too keen competition to lend to the farmer," declared Sir Frederick Williams Taylor, president of the Canadian Bankers' Association, and general manager of the Bank of Montreal, when examined by J.T. Shaw Independent member of Calgary, before the banking and commerce committee on Western conditions. The main difficulty in the west was crop failure, Sir Frederick said, and in such cases the banks "show the utmost consideration to the farmer," and would extend credit for another year if there was prospect of success.

Mr. Shaw asked "Why the Banks charged More than the Ordinary Maximum Rate of Interest in the West?" "Because," was the reply, "out of 1219 branch banks operating in Western Canada 419 are operating at a loss."

"That is your justification for Violating the Law?" queried Mr. Shaw

"I object to the word 'violation,'" said Sir Frederick. Mr. Shaw asked Sir Frederick's opinion of the wisdom of having a revision of the Bank Act every five years

"God forbid," said Sir Frederick

Sir Frederick told Mr. Shaw that the banks had agreed upon the Three Percent Rate of Interest paid to Depositors, but Not on the Rate of Current Loans.

In reply to William Irvine, Labor, East Calgary, the witness said the government had issued \$20,000,000 of what might be called "flat money" during the war. Sir Frederick called these Dominion notes "flat" because they were not issued under the law requiring a certain proportion of gold behind them

#### Two Accidents to Municipal Shed in Few Months

On Sunday afternoon about a quarter past one, a whirlwind suddenly struck Bell Street and picked up the Municipal Shed and threw it over, this shed has been used by the farmers for many years when in town to tie their horses in, it was fortunate that there were none in it at the time of the accident, no damage was done to anything other than the shed itself, last fall a horse which was tied there became frightened and in its dash for freedom pulled down one end of the shed, which was soon repaired.

## Pay \$500 For A Seat To View Royal Cortège On Thursday

At Marriage of Duke of York and Lady Elizabeth Bowes-Lyon

London is all aflutter over the preparations. The environs of Westminster Abby is a forest of stands and pineboard seats for those willing to pay from \$5 to \$500 to see the royal cortège, and the whole city was in holiday attire for the event which links a member of the royal family with one of non-royal blood

All this preparation led the labor newspaper, the Daily Herald, to print a caustic editorial in which it says:

"In prosperous times it might not matter, but now when there is wide spread misery and hunger when millions of our fellowmen and women are only being kept alive, when vast numbers of children are growing up without knowledge of the happiness of a home, or of sufficient food and clothing or of cleanliness and orderly ways—at such a time it is both a shame and a peril that there should be such a lavish outpouring of money on costly apparel and fantastically-elaborate feeding."

The newspaper says this view is also undoubtedly taken by the king and queen who have simple taste. The method chosen to celebrate the marriage it adds, is entirely out of key with the present state of the nation; the population of which "is suffering painful humiliation and privations"

The Herald charges that the interest and publicity over the wedding has been deliberately created by the newspapers for the purpose of increasing their advertising revenue

## Fred Brown Gets Into Lime Light

Former Lethbridge and Bow Island Man Stirs up Interest at Banff

When F.W. Brown "blew" into Banff the beautiful, ten days ago claiming to be the duly appointed police magistrate of the town, Banff got shy right away. His authority was questioned despite the fact that he carried a letter of introduction from Deputy Attorney-General Browning, but no mention was made of the appointment

Some time after his arrival an important case came up for hearing and Brown was called on to preside. He heard several other minor cases imposing fines. But all the time there was a suspicion that he was "sailing under false colors." Attorney-General Brownlee was communicated with, and while it was found that Brown is a duly authorized police magistrate the department never appointed him police magistrate at Banff, a position held for years by B.W. Collison

During his short tenure of office Brown heard several liquor cases and now it is found that he has the powers of a police magistrate, alleged offenders cannot appeal

Local interest in the foregoing episode centres in the fact that Brown is well known in Lethbridge and at Bow Island, where he resided for some. While in Lethbridge he built the Arcade Billiard Hall, and later operated a motion picture theatre. In Bow Island he was engaged in the hardware business and also acted as a magistrate

### One on the Lawyer Very Familiar

Our friend, Attorney Blank, was examining a witness in court the other day.

"Have you ever been arrested before?" he asked the man

"No, sir!" the witness answered

"Have you ever been in this court before?"

"No, sir!"

"Are you sure of that?"

"Yes, sir!"

"Your face looks very familiar. Where have I seen you before?"

"Well, sir," the witness calmly answered "before the country went dry I was the bartender in the saloon across the street from here."

## Rumor Of Gold In Labrador Probed

OTTAWA.—The federal department of mines has taken steps to get information regarding the possibilities of gold in Labrador, stated Charles Stewart, minister of the interior, in the house of commons yesterday afternoon but no report has yet been received.
